

Renewing Hope

Q1 FY2024-25

“Six decades ago, we reinvented the company to help Indian Industries transition to a more sustainable model.”

Girish Ramesh Luthra
Managing Director, Luthra Group

Statement of Hope

We use hope to actively create a tomorrow where humanity and ecology work together to maximize Earth's potential.

Our Salient Features

R&D & Patents

Active in R&D with patents and pending patents.

Advisory Experience

Advising lawmakers and working with government policies.

Global Partnerships

International technology provider tie-ups.

Certifications

ISO 9001:2015, 14001:2015, 45001:2018 certified.

The Foundation of Our Success

Our Market Portfolio

Energy

- Sustainable Alternate Fuel from Municipal Solid Waste & Hazardous Waste

Water

- Waste Water Treatment Plant
- Waste Water Recycling
- Pipeline Conveyance Network
- Industrial Water Supply

Services

- Sustainability Consultation
- R&D
- Facilities Management
- Eco Park Design Consultation

Waste Management

- Treatment Storage Disposal Facilities
- Zonal Management
- Ship Recycling

Industrial Infrastructure

- Industrial Eco parks
- Hospital
- Hotels
- Residential
- Commercial spaces

Our Journey

1955 - 1999

Textile Factory

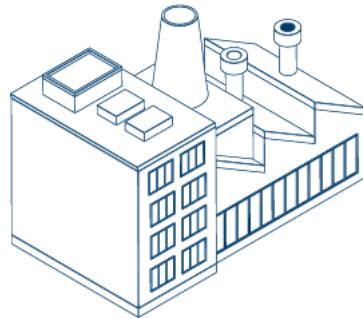

- Started operations as a Textile Company

1999 - 2006

Diversification

Environment

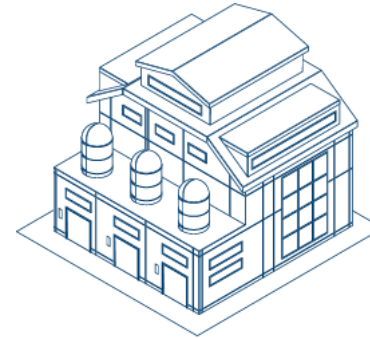

- Entered the market of SAS (Sustainability as a Service)
- Established Treatment, Storage, and Disposal Facilities (TSDF) operations in 3 states

2006 - 2009

Diversification

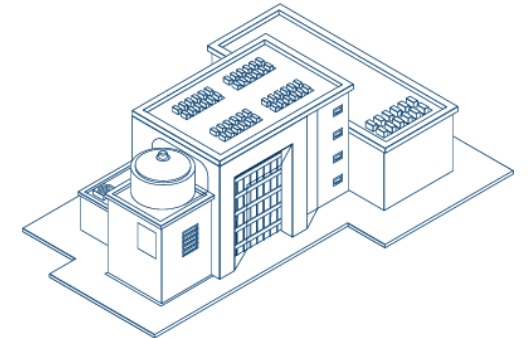

Industrial

- Built India's first Eco Industrial Park
- Built 2 Common Effluent Treatment Plants (CETP) in Palsana and Pali

2009 - 2025

Aggressive Expansion

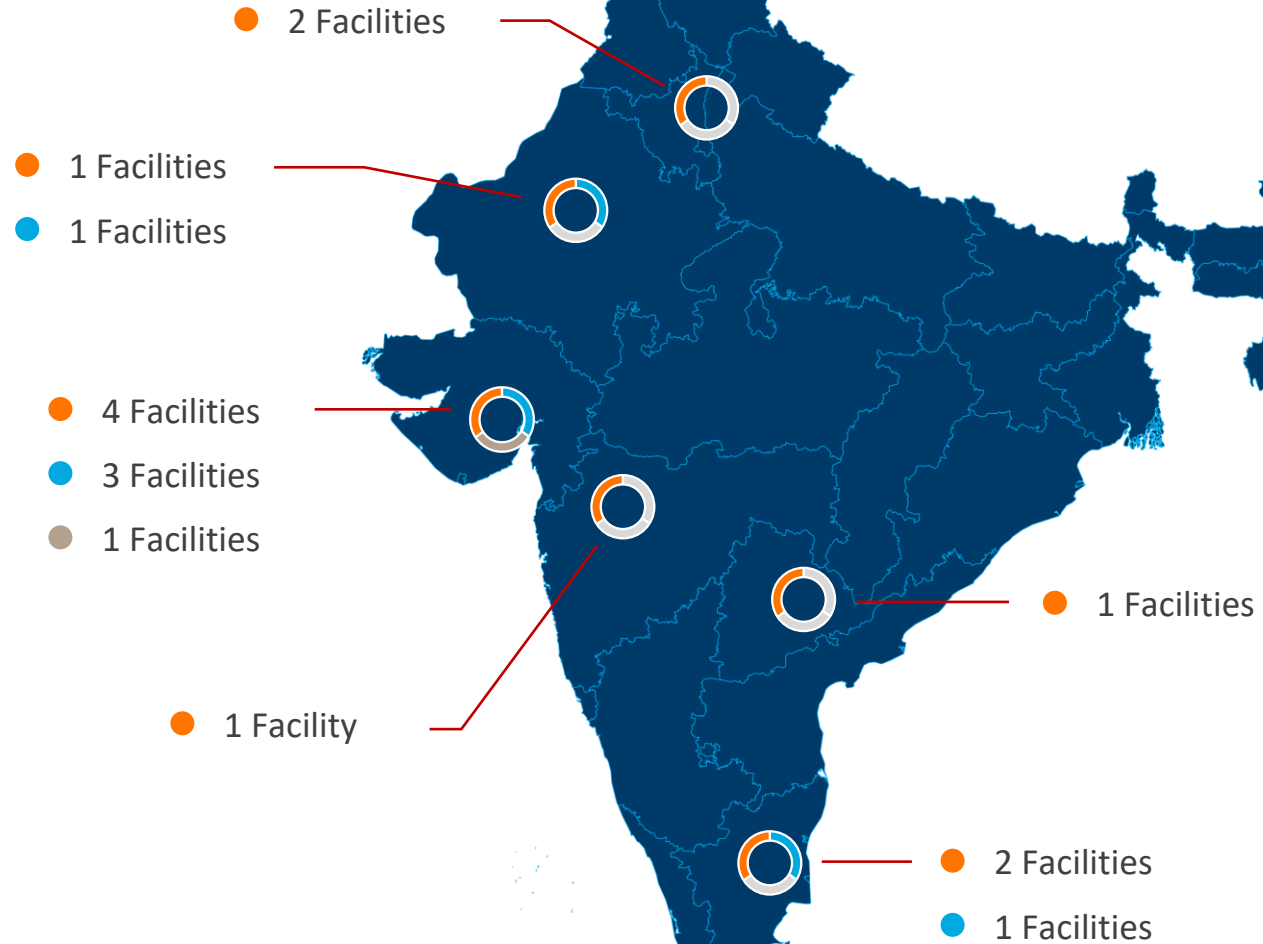

- Expanded Sustainable Energy business to 9 more states
- Build water recycling plants in 3 new states
- Expanded TSDF operations to 18 states
- Established a Multi specialty hospital, Surat

Our Presence

27 Facilities catering
18+ states

Our Star Products

- / / / / -

EkaCoal 10

- EkaCoal 10 is a sustainable alternate fuel designed for wide industrial use.
- Serves as an **effective replacement for coal** in various industrial applications
- Reduces greenhouse gas emissions addressing critical environmental concerns.

- / / / / -

EkaCoal 20

- EkaCoal 20 offers a **sustainable solution for the cement industry.**
- Designed for use in kilns, EkaCoal 20 consists of **95% Refuse Derived Fuel (RDF)** with a high calorific value.

02

Luthra Water

Creating Sustainable Water Solutions for Industries

Luthra Water recycles and delivers water for government and industrial corridors.

We have a network of 200 km of pipeline and CETP plants across states, ensuring no water is wasted and wastewater is recycled for industrial use.

i) National Award for Excellence in Water Management

Our Leaders

Our Leadership

Mr. Girish Ramesh Luthra

The driving force behind Luthra Group's triumphs

With over 40 years of experience, Mr. Luthra has driven growth across diverse sectors. His leadership has propelled the Luthra Group, a fast-growing business house, to become a champion of the circular economy.

Mr. Luthra's deep understanding of circularity has yielded significant contributions to self-sustainability, decarbonization, and greenhouse gas reduction in India. His expertise in waste management, industrial infrastructure, and textiles has positioned the Luthra Group as a leader in environmentally responsible practices.

Our Leadership

Mr. Dhruv Girish Luthra

Leading Luthra Group's Sustainable Revolution

With over a decade of experience, Mr. Dhruv Girish Luthra is a dynamic entrepreneur in all phases of business - setting up new operations, turning around struggling businesses, driving expansions, and diversifying ventures.

What really sets Dhruv Luthra apart is his passion for environmental protection, pollution control, and public health. This passion has driven his organization to become a leader in environmental infrastructure. His innovation in turning waste into fuel has been a source of inspiration for many stakeholders and society at large.
